

# Some kids shouldn't follow in their parents' footsteps.

**An estimated 13,000 children  
in our community have a  
parent in prison.**

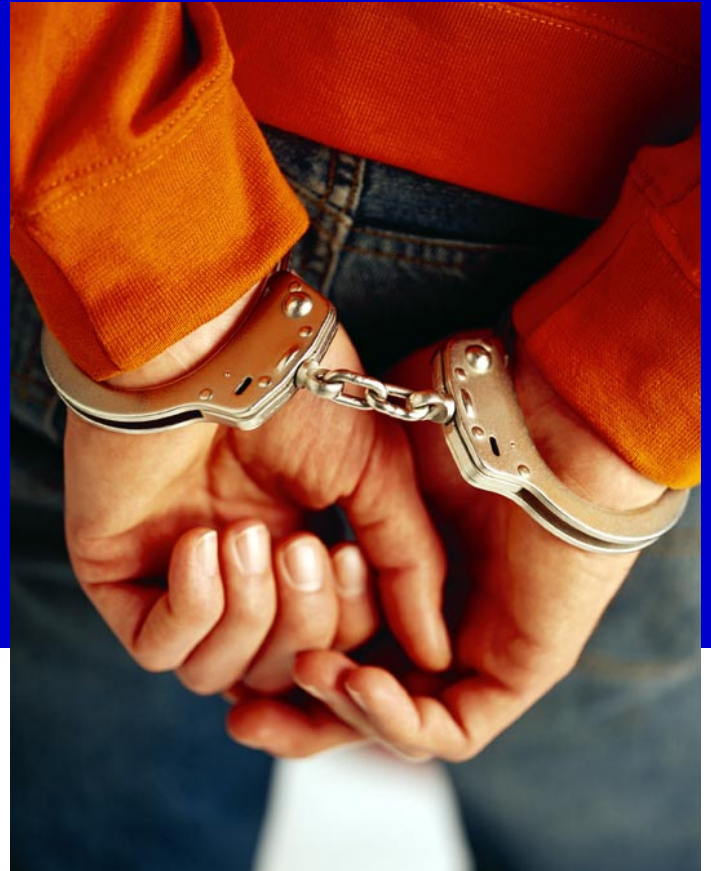

Statistics show that these kids have a 70 percent chance of ending up behind bars, too.

Mentoring programs have been proven to keep children of incarcerated parents off the path to prison.

Compeer's Mentoring Children of Promise program -- in collaboration with Catholic Family Center -- can help show these kids another way.

**But we need more volunteers to make it work.**

**Call Compeer at 546-8280, today.**
